Structural Scores Recorded on: 05/12/2016 12:12:05 PM

This is a very exciting bull. He is in the top 1% of the breed for all \$Index values, with outstanding marbling, milk, days to calving and scrotal size - and the highest recorded Australian sire for scrotal size. Prominent females from our Jedda, Dandloo and Lowan cow family lines sit back in the pedigree of this sire, namely VTMJ32, VTMC404 and VTMZ53. Each of them have made significant contributions to our herd. There is maternal longevity on the dam's side of this bull with the past six generations all having run through our donor program. In our annual autumn 2020 bull sale we sold five of his sons for an average of \$11,800 which topped our sale sire average. His semen is marketed internationally.
